“Behind the Glass Screen”

a homeopathic survey of Ozone

Anne Vervarcke

(...) “**In a proving we hear the “VOICE OF NATURE” through the words or the expressions of a prover.** And due to the law of similars the remedy has to match the patient’s expression, complaints and disease (“...the only conceivable “**GESTALT OF THE DISEASE**” § 6 Organon). In addition to what we understood through the homeopathic provings, Anne Vervarcke has added in the book the new understanding of Ozone through the connection to the chemical elements, to the place in the periodical table (03) and the clinical and physical properties of the element Ozone, the “good” and “bad” Ozone and its action/reaction. And due to that she has brought out a larger frame of the theme of the **“OZONE PATTERN”**

The GAIA Theory

Anne Vervarcke

About 4.6 billion years ago Planet Earth came into being as the result of a thermonuclear explosion. No life was possible in its ATMOSPHERE as yet. The planet had to considerably COOL DOWN and suitable atmosphere had to be created.

In the first stage of its existence, the atmosphere probably consisted of (...). No free OXYGEN was present during this stage that is called HADES, the Greek name for HELL.

OXYGEN

Anne Vervarcke

OXYGEN - the SIXTEENTH stage of periodic table of elements:

The umbilical cord is cut. Now the person is permanently, irreversibly cut off from the (M)OTHER and there is no way back. He is on his own now. This fills him with fear, he is afraid he will not be able to cope, there are too much impressions to process, he fears he will not make it. His reaction is to withdraw himself entirely, behind a protective shield or in a glass bubble from which he can observe the others but they cannot touch him.

When his energy is good he will venture into the outside world but very suddenly he can run **out of energy** (^) and he will need to retreat and rest completely. Like a baby in its cradle. He will remain dependent on another, the (M)OTHER, for everything because there is **NO LIFE** without her.

OZONUM - THE EIGHTEEN (16+2)

The Discourse about OZONUM from a perspective of “the Psychology of Subjective Bonds”

We, humans, are children of the MOTHER Earth too. We need our Mother Nature a whole life. There is definitively a natural shape of dependence or better to say interdependence of life, the GLOBAL LIFE INTER-DEPENDENCE. We can observe nowadays what are consequences of cutting off the symbolic umbilical cord connecting us to the LIFE in general. Where does the egoistical and false belief that we can rid ourselves of ALL THE BONDS and live according to our own ideas without any regard to others and all else around. Look at all ecological disasters we created. We behave in some way like evil children towards the life on planet EARTH.

There is a breath-taking declaration of the AGENT Smith in the movie The Matrix (1999). The Agent Smith interrogates Morpheus and disdainfully describes human destructive behaviour towards life and the human race: “*There is another organism on this planet that follows the same pattern. (...) A VIRUS!*” (*)

We, humans, are struggling the whole life to find balance between a three forces. This is the power of the BOND! The bond with MOTHER, the bond with FATHER and the bond to ourselves - the CHILDREN of our parents. Our HUMAN IDENTITY can be perceived like a dynamic movement of a trefoil knot, each loop of the endless mutually looped THREE-LEAF CLOVER (**) presents the bond our selves towards the mother, the father and the child. We could call it a THREE-LEGGED STAND, that affords us STABILITY and

GROUNDING in our life, as much as the growth, our symbolic spreading of the wings, and FREEDOM to ACT.

The DYNAMIC EQUILIBRIUM of the trefoil looped knot is the source of huge SELF- GENERATIVE power. It is like a power generator or like a nuclear reactor providing energy or like a perpetual dynamo operating inside us. The trefoil knot is NONTRIVIAL, meaning that it is not possible to "UNTIE" a trefoil knot in three dimensions, our reality, without cutting it. This means that a trefoil knot is not isotopic to the unknot.

When the knot is volatile and unbalanced, when bonds are not symmetric, it causes INSTABILITY. Cutting ourselves off from SACRED BONDS of life we inevitably pull ourselves back behind a TRANSPARENT LAYER or into a BUBBLE of self-isolation, trapped in the BALLOON of self-imprisonment. This isolation is perceived as a deep desperation and a hell-like loop of eternal damnation.

When in BALANCE, when bonds are symmetric, it is the source of well-being, stability and INTERCONNECTEDNESS of life, connecting us to the life, in all its expressions and live forms. It is a source of refreshing and self repairing LIFE FORCE. It is the PRIMORDIAL BREATH of LIFE.

There is the difference between the homeopathic Ozonum and homeopathic Oxygenium beyond doubt despite the fact they share same elemental chemical identity.

OZONUM - the remedy of our time

I expressed my belief since the beginning of coronavirus epidemic that **the remedy Ozonum covers a wider indication range** compared to the conventional definition of a disease-centered genus epidemicus (DCGE).

I am convinced that the Ozonum dynamic very well resonates with contemporary challenges we have experienced globally and on an unprecedented scale. It ranks the highest among the prescription in my practice. In my modest opinion Ozonum deserves to be called due to its wide range of applications **THE GLOBAL IMPACT REMEDY**.

It seems to me that the dream of the inner reality of ozone has become a dream of global (and consensual) outer reality of contemporary life in general. This is, from my point of view, the PQRS in this particular coronavirus pandemic.

I start to call ozone after seeing numerous cases and understanding more the underlying dynamism the protector of life space and primordial breath of life.

I would like to also invite you, each of you, to cooperate on the **GIW (GIVE) - Global Impact World project**.

I dream to do a multi-centric homeopathic epidemic study and every hand, brain and heart will be needed and appreciated.

I believe we can do a great deal for mankind and the world as homeopaths now. I think that if we carefully document each successful Ozonum and another prescription, we will collect a statistically significant sample together. Consequently, we can present clear evidence of benefits of homeopathy and its effectiveness in service society and humankind.

Soon I will launch soon the webpage called:
