7th of April 2020

Pilsen, Czech republic

Dear colleagues and friends,

I will post my original letter "["OZONUM - the remedy of our time"](#) in separate sheet. The letter was published in the electronic version of the WISH newsletter in 23rd of March. I pointed out that Ozonum may be a remedy not only for coronavirus pandemic but also of our time in general.

Every additional Ozonum case makes me wonder and look for an answer to a question as to why the remedy has been indicated so widely. I have noticed that these are not only cases of a viral infection of the respiratory tract, but also cases which have been affected significantly by an indirect impact of the epidemic.

In the letter I expressed my belief that the remedy Ozonum covers a wider indication range compared to the conventional definition of a disease-centered genus epidemicus (DCGE).

I work with a hypothesis that the corona virus could have such a strong impact on the entire humanity only if it had a fertile ground for it.

### **Ecological link**

The human activity has released tons and tons of dust, exhaust fumes, and toxic substances into the atmosphere. We destroy the landscape by deforestation, plastic pollution of oceans, by planting monocultural plant (rape plant) and modification of river beds, having reduced the soil humidity to an alarming degree. Along with global warming, this creates conditions for forest fires on a wide scale. The glaciers are melting and the air humidity is reduced. Insufficiently irrigated forests are an easy target for the sun rays, and a vicious circle slips into being.

Every forest fire releases a large amount of combustion products. Both gaseous and solid combustion products furthermore worsen the quality of the air, accelerate the greenhouse effect and the global warming, further weakening the protective ozone layer of the atmosphere. More solar as well as space radiation penetrates the ozone holes as well as the more permeable ozone layer, reaching the Earth. Deforested landscape dries out more, and, most likely, we may expect further forest fires.

Large countries in Europe such as Greece and Spain also struggled with it. The fires in Australia and Siberia last year were crucial - they spewed into the atmosphere an incredible amount of fumes and flue gas. Clouds of smoke circled the world.

For further reference see links at the end of the letter.

### **Air Pollution - pandemic link**

I view the current situation as a result of exhalations from sustained industrial activity and massive fossil fuels based transport. Thanks to global warming and changes in the air flow, there is no circulation in the atmosphere that would drive heated air towards the equator and would leave the ends of the magnetic dipole of the Earth cool.

[www.global-impact.world](http://www.global-impact.world)

I have also recently expressed the idea that I see a link between the Spanish flu pandemic during World War I and the air pollution through the use of combat gases, especially chlorine. Combat gases were a horrible weapon of mass destruction, that were used to drive soldiers out of trenches, like rats out of ratholes. In my opinion, the result of air pollution was a deadly pandemic of Spanish flu. Pandora's box has been open through atmosphere "air - port/s".

## PANDORA'S BOX of the First World War

**PB = 1WW (CHLORINE @ SPANISH FLUE)**

**PB = 1WW (CL2:SP)**

### legend:

PB - Pandora's box

1WW - First World War

CL2 - chlorine/chlorum

SP - Spanish flu

Nowadays, Pandora's Box has been opened by activities of our GLOBAL SOCIETY, by industrial and traffic exhalations and by the fires in Australia and Siberia. An incredible amount of fumes and flue gas has been circulating in the atmosphere. I use to describe the massive and global changes it has triggered at various levels by the concept: "The GLOBAL IMPACT". It encompasses also all primary, secondary, tertiary and quarterly effects of the coronavirus pandemic.

## PANDORA'S BOX of the Global Society

**PB = GIW (OZONE @ SARS-CoV19)**

**PB = GIW (O3:CoV19)**

### legend:

PB - Pandora's box

GIW - Global Impact - World

O3 - ozone/ozonum

SARS-CoV19 - coronavirus

CoV19 - coronavirus

### The homeopathic remedy Ozonum

I have been prescribing the drug since the end of January 2020 and the number of cases is continually increasing. Even clients who have been treated in civilian conditions with a very good remedy at a deep level now benefit from Ozonum. As if their condition had dynamically changed, or would have been "infected" by ozone.

During the epidemic I have identified five, later seven and currently nine Ozonum types. I described original five groups in the study "OZONUM PENTACHORD".

I have successfully prescribed Ozonum also in cases in which the condition of the clients reflected the "spirit of the time" (Zeitgeist), suffering from numerous and strict anti-epidemic measures introduced by government and yet lacking any infection. In any case, the increase in prescriptions in my practice shows a clear temporal correlation with the arrival of the coronavirus.

[www.global-impact.world](http://www.global-impact.world)

### The Global Impact Remedy

I am convinced that the Ozonum dynamic resonates very well with contemporary challenges we are experiencing globally and on an unprecedented scale. In my modest opinion Ozonum deserves to be called **THE GLOBAL IMPACT REMEDY**. It ranks the highest among the prescription in my practice.

It seems to me that the dream of the inner reality of ozone has become a dream of global (and consensual) external reality of contemporary life in general. This is, from my point of view, the PQRS in this particular coronavirus pandemic.

I highly recommend studying the dreams of Ozonum like:

Mind; dreams; disease; plague  
Mind; dreams; gasmasks, people wearing  
Mind; dreams; disease; sick people; help them, cannot  
etc.

For further reference see OZONUM PENTACHORD.

### Final words

I would like to ask you, dear colleagues, to reflect on the topics that I suggest. I will be grateful for any feedback.

I would like to also invite you, each of you, to cooperate on the GIW - Global Impact World project. I dream to do a multi-centric homeopathic epidemic study and every hand, brain and heart will be needed and appreciated.

Soon I will launch the webpage called: **[www.global.impact.world](http://www.global.impact.world)**

I believe we can do a great deal for mankind and the world as homeopaths now. I think that if we carefully document each successful Ozonum and another prescription, we will collect a statistically significant sample together. Consequently, we can present clear evidence of benefits of homeopathy and its effectiveness in service society and humankind.

Again, any suggestions, ideas and contributions in the **GIW (= GIVE) project - The GLOBAL IMPACT WORLD** are welcome and greatly valued and appreciated.

Do not hesitate to contact me in need of further clarification

With best regards and wishes of well-being

Dr Petr Simeon Gajdos (CZ)

### Acknowledgement

I owe huge gratitude and acknowledgement to beloved friend **Hana Shatner** for her help with translations and editing the texts.

### Copyright

The articles written by me are for free distribution among homeopathic professionals or homeopathic bodies and schools. Please, quote always the source. Do not share it on Facebook among the larger public - it is only for professionals. Articles are copyrighted.

### Disclaimer

Despite an exponential growth of Ozonum prescription I continue with an individual approach to my clients, as the cases presented up until now have shown. **I do not prescribe it at random or in a blanket manner.** To honour and respect individuality of the person is the desirable condition sine qua non.

**UMBERTO I EXPERIMENTS WITH OZONE THERAPY: THE GOAL, TO IMPROVE THE BREATHING OF COVID-19 PATIENTS**

APRIL 3, 2020 15:41 by Enrico Tata

<https://roma.fanpage.it/lumberto-i-sperimenta-lozonoterapia-lobiettivo-migliorare-la-respirazione-dei-pazienti-covid-19/>

A new hope for Covid-19 patients comes from **ozone therapy**, i.e. the administration of a mixture of oxygen and ozone (**three oxygen** atoms) to **increase the amount of oxygen in the body**. At the Policlinico Umberto I in Roa, explains Dr. Francesco Pugliese, director of Anesthesia and Resuscitation Unit B, the protocol has already been approved and today the first patient will be recruited. The goal is to improve respiration for coronavirus sufferers and from China they have arrived in this direction, says the professor at the Dire agency, "messy data, but certainly from which positive signals come. We are now going with lead feet, why not we pretend to say that we have found effective therapy. We want to verify it and possibly validate it".

Best wishes, colleagues!

Petr
